

CUSTOMIZE APP PERMISSIONS IN THE IOS OPERATING SYSTEM

In the ios operating system, you can adjust app permissions via Settings > Privacy & Security

IN bob LT	E 14:15	49 % 🗩
	Settings	
\bigcirc	General	>
	Control Centre	>
AA	Display & Brightness	>
	Home Screen	>
Ŕ	Accessibility	>
*	Wallpaper	>
	Siri & Search	>
	Touch ID & Passcode	>
sos	Emergency SOS	>
۲	Exposure Notifications	>
	Battery	>
	Privacy & Security	>

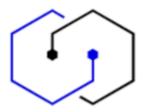

Here you can define which apps, for example, have access to your contacts, your photos or your microphone.

Applications that have requested access to your contacts will appear here.	

Under Photos, you'll see that Signal and WhatsApp have access to all photos.

And under Microphone, you'll see that only WhatsApp has access to the microphone.

This way you can set which hardware, software or data of your device your apps have access to.
